Mk.III TIP-TOE PUMP

IT IS SIMPLE TO FIT THE NEW MODIFIED
WHALE TIPTOE PUMP

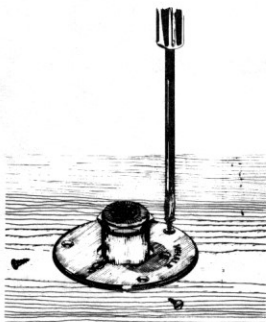

1. Cut 3" Dia. hole.

2. Place pump into position.

- * No need to remove floor plate and screws - one piece assembly.
- * No need to make adjustment for floor thickness - it will fit up to 2" thick floors.
- * No need to have a man underneath.

3. Position and secure 3 wood screws.

Pump is now ready for connection of suction and discharge hose.
