**ANY TYPE OF CARAVAN
BUILT TO ORDER**

Thirty years' experience in Caravan Construction has made itself evident in the fine craftsmanship of Thomson Caravans, and the meticulous care and ingenuity speaks for itself in the finished model. The personal experience acquired by running a hire fleet of over thirty caravans has resulted in many new ideas, original designs and novel features, which have been incorporated in the latest models.

Each Caravan is carefully planned to avoid all discomfort on the road, special attention being paid to Chassis details and balance. This, while ensuring perfect stability and balance, also increases the speed at which the Caravan may be towed.

If you intend taking a Caravan holiday this year, we hope that you will give these models your favourable consideration, and we would urge you to order now and avoid delay.

MANY TRAILER OWNERS SPEAK FAVOURABLY OF THE UTILITY OF THOMSONS CARAVANS

THOMSONS SPECIAL PRE-WAR 2-3-4 POPULAR 'AVON' MODEL

FEATURES AND DESCRIPTION

An economical Caravan, capable of being towed by cars of from 8 h.p., which solves the light car owners' problem. Substantially built, well-designed, giving maximum floor space and utility.

SPECIAL FEATURES

The lightest 4-Berth Caravan on the Road. 4 Full-sized Beds, 2 Wardrobes. Full Equipment for 4 persons. Large Bedclothes Lockers. All Steel Chassis and tow pole. Rigid Corner Jacks. Patent Ball Towing Hitch. Roller Bearing Axle. Dunlop Wheels and Tyres.

A triumph of the Caravan Designers' Art, giving a fully equipped 4-Berth Caravan in 2 Apartments with none of the usual irksome restrictions, yet capable of being towed by an 8 h.p. car, and at a reasonable price.

THOMSONS 'EN'

SPECIAL FEATURES

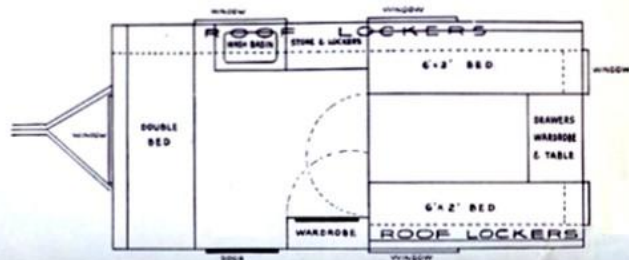

Double walled with special air-flow ventilation. Wardrobe in front apartment. Calor gas cooking and lighting. Double burner stove. Multi-spring beds. Chest of drawers with folding table. Commodious bed-clothes lockers. Aluminium cooking utensils. Large roof lockers. Interior maple finished.

All steel combined chassis and tow pole. Patent self-locking ball hitch. Reversing brake lock. Hand brake lever. Adjustable jockey wheel. Roller bearing axles. Dunlop easi-clean wheels and tyres. Rigid patent corner jacks. Chrome plated rubber-lined windows. Electric lighting. Whole well-finished.

DESCRIPTION

A commodious well-designed caravan incorporating a number of features which enhance the appearance and add to the utility of this model.

The interior, finished in cellulux, gives an air of spaciousness seldom found in a caravan of this size. The general layout follows well proven practice and, assisted by the interior decoration scheme, combines to form a caravan which can hardly be improved upon.

THOMSONS 'KELVIN' MODEL

The latest model from this factory takes the form of a well-designed 3-apartment model, combining the best features of the modern house, yet retaining the essentials for out-door life. The new insulated wall lining, incorporating airflow ventilation, gives a continuous current of medium air through the body of the van, yet keeps the interior absolutely draught free. Modern architectural practice is followed in the design of the Kitchenette where every device and space is utilised, giving the housewife that pride of ownership so seldom met with at the present day. A caravan incorporating Gas Cooking and Lighting, Hot Water Geyser, Cold Water System and Storage Capacity and Hygienic Chemical Toilet, so seldom seen that this van really becomes the "Aristocrat" of Caravans.

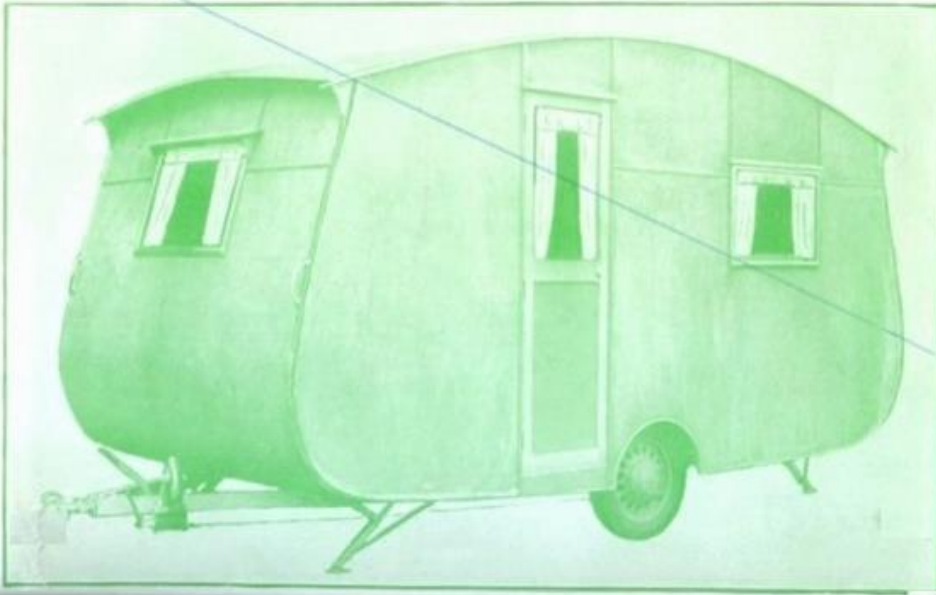

Alternative feature : Pithers Stove, and Hot Water System, or Cold Storage Tank and Geyser.

SPECIAL FEATURES :

- 3 Separate Compartments.
- Separate Kitchenette.
- Hygienic Chemical Toilet.
- Gas Radiator.
- Dinette Beds forming Double Berth.
- Large Capacity Larder and Food Lockers.
- Mains Lighting.
- Plugs.
